

UNLEASH YOUR CREATIVITY WITH HIGH-DEFINITION DIGITAL PRINTS

EMIPrint

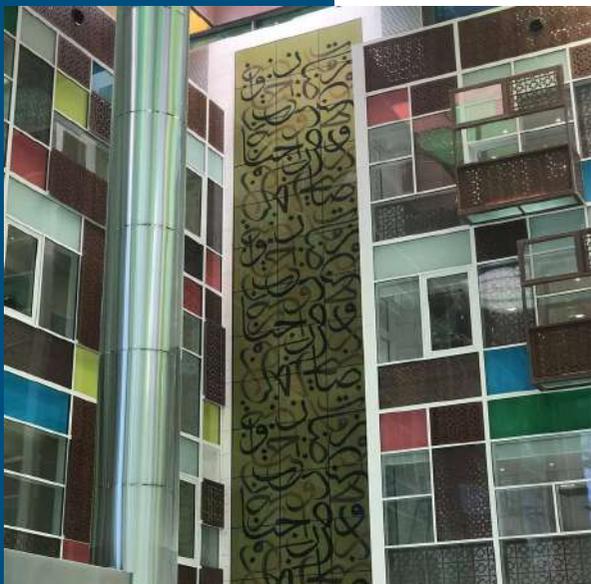

CONSTRUCTION AND INTERIOR DESIGN

Explore limitless possibilities with **EmiPrint** from **Emirates Glass**, transforming glass into bespoke masterpieces.

At Emirates Glass, we bring your vision to life with our state-of-the-art digitally printed glass. Our advanced printing technology allows for high-resolution images, intricate patterns, and vibrant colors directly onto glass surfaces, offering limitless design possibilities for both interior and exterior applications such as:

- . Facades.
- . Wall Decoration.
- . Shower Doors.
- . Lifts & Staircases.
- . Backsplashes.
- . Doors.
- . Partitions.
- . Bird Friendly.

WHY DIGITAL PRINTED GLASS?

Exceptional Durability:

Our glass combines stunning aesthetics with scratch-resistant, Chemical resistant, UV resistant and fade-proof designs, ideal for diverse environments.

Eco-Friendly Commitment:

We use sustainable practices with eco-friendly inks, minimizing waste for greener building projects.

Versatile Customization:

From logos to artistic murals, customize our glass for offices, facades, or residential interiors.

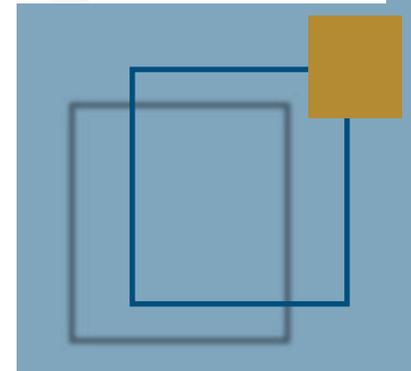

Enhanced Functionality:

Achieve privacy and security with customizable opacity levels and textures, enhancing both style and safety.

TECHNICAL SPECIFICATION

Max. glass size : 3,200 mm width x 8,000 mm length

Min. glass size (automatic printing) : 380 mm x 380mm

Glass thickness : 4,0 - 19,0 mm

*Colour : CMYKGW - RAL - PANTONE-
NSC- RAL DESIGN*

Customized , patterns , High resolution

OUR PROCESS

Consultation and Design:

Our team of experts collaborates with you to understand your vision and requirements, offering design consultation and technical advice to achieve the best results.

Printing and Production:

Using advanced digital printing technology, we produce high-definition prints with precise color matching and sharp details. Our quality control ensures each piece meets the highest standards.

APPLICATIONS OF DIGITAL PRINTED GLASS

Corporate Spaces:

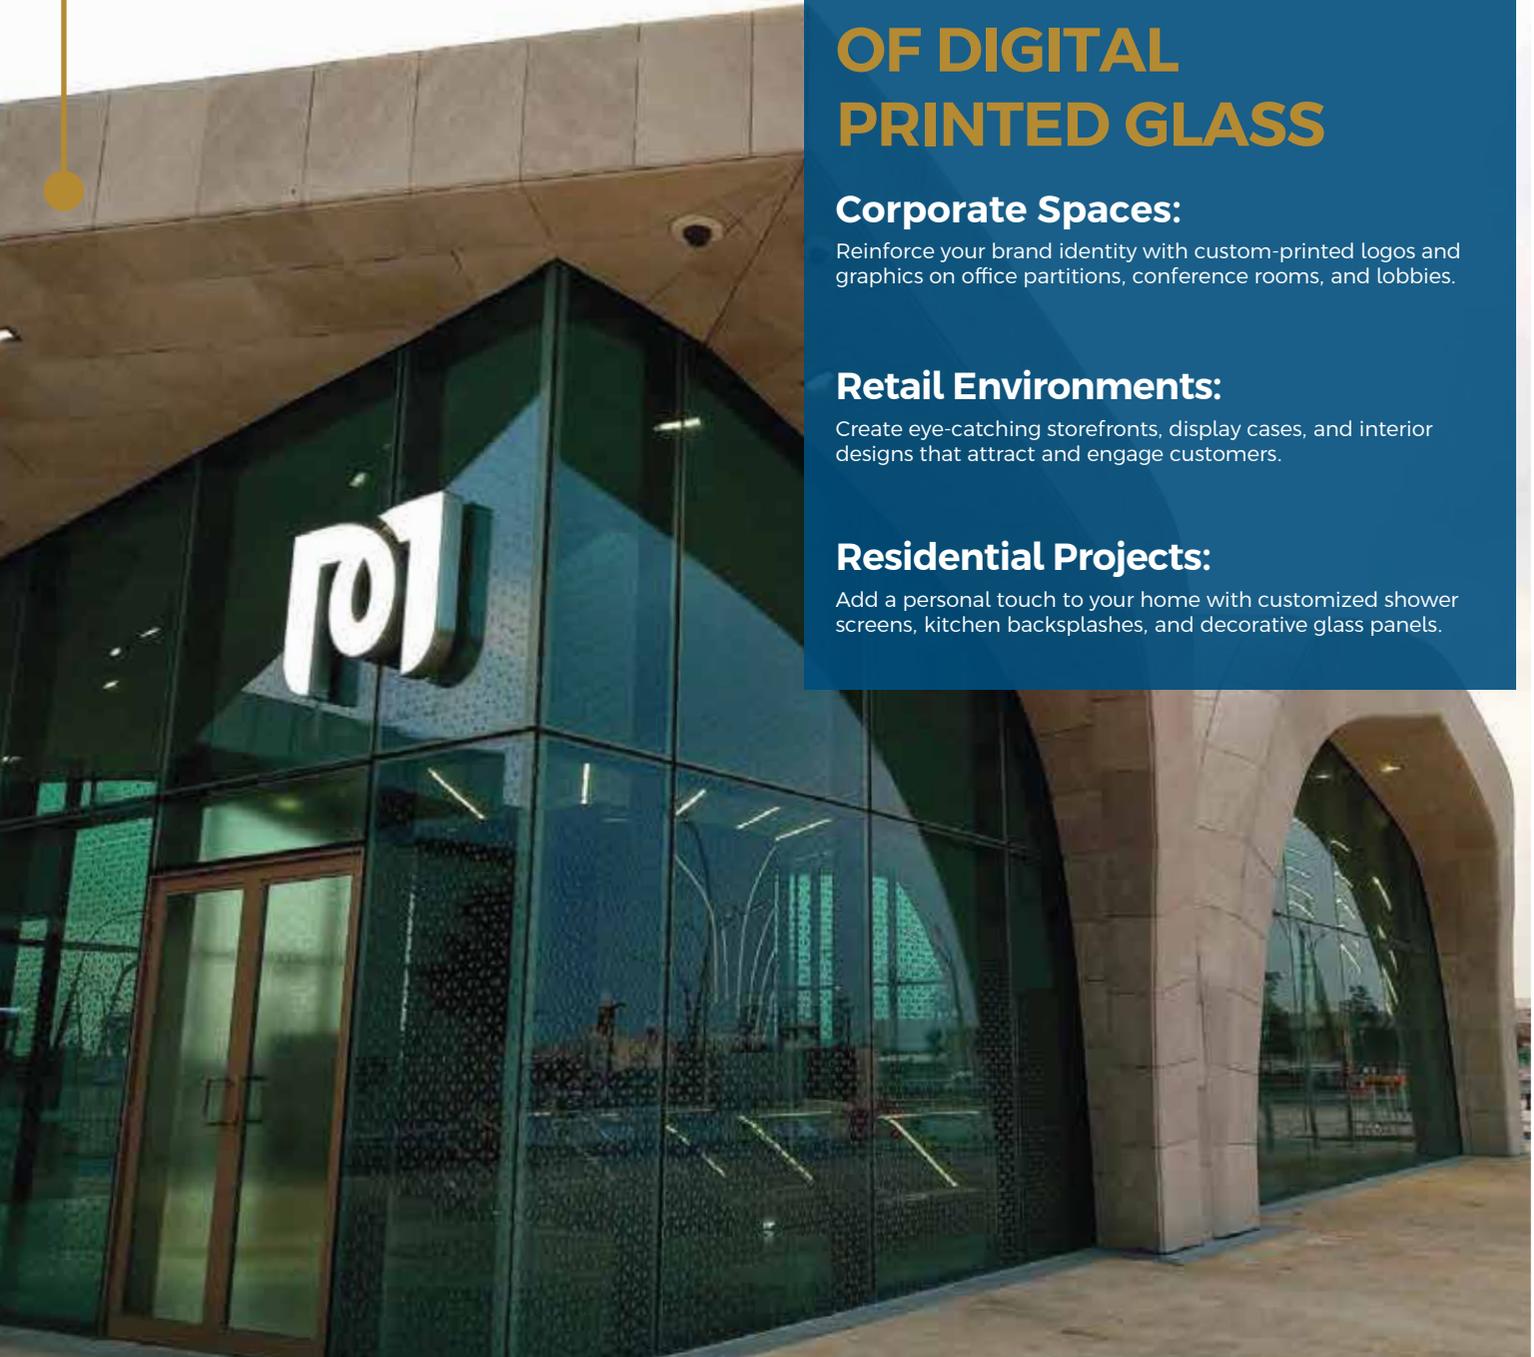

Reinforce your brand identity with custom-printed logos and graphics on office partitions, conference rooms, and lobbies.

Retail Environments:

Create eye-catching storefronts, display cases, and interior designs that attract and engage customers.

Residential Projects:

Add a personal touch to your home with customized shower screens, kitchen backsplashes, and decorative glass panels.

DIGITAL PRINTED
GLASS**

BIRD-FRIENDLY GLASS

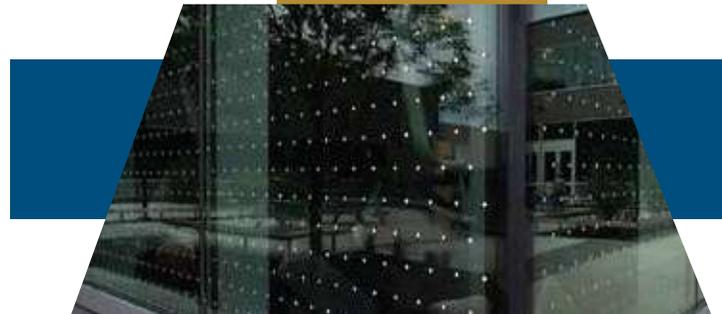

Bird-friendly glass is designed to reduce collisions between birds and buildings. Birds often cannot see clear glass and will fly into windows, leading to injury or death. By incorporating specific patterns, this glass can make windows more visible to birds, helping them avoid crashes.

Patterns:

- Horizontal and Vertical Lines: Patterns with horizontal or vertical lines spaced no more than 2 inches apart.
- Dot Patterns: Dots spaced closely together to create a grid that birds can perceive.
- UV Patterns: Patterns that are visible to birds but not to humans, as birds can see ultraviolet light.
- Textured glass that creates a visual barrier for birds.

Importance:

- Conservation: Reducing bird fatalities helps preserve avian populations, some of which may be endangered or threatened.
- Biodiversity: Birds play crucial roles in ecosystems, such as pollination, seed dispersion, and pest control. Protecting them supports overall biodiversity.
- Building Safety: Reducing bird collisions can prevent damage to glass and reduce maintenance costs for buildings.
- Ethical Responsibility: As urbanization increases, it is important to consider and mitigate the negative impacts on wildlife. Bird-friendly glass is a step toward more sustainable and ethical architecture.

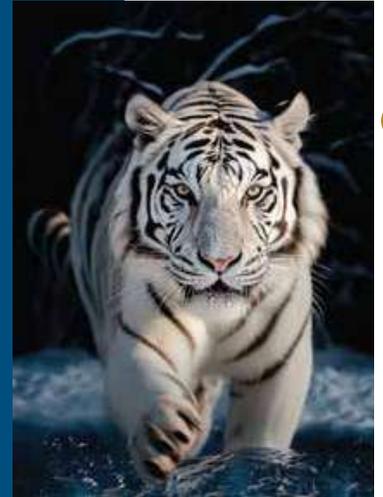

OUR PRODUCT LINES

At Emirates Glass, we believe that surfaces form the canvas for boundless creative expression.

Our product lines offer a rich visual lexicon for a variety of applications, including walls, columns, partitions, elevator interiors, and beyond.

As diverse as the spaces they adorn, our products can be customized to suit the unique demands of contemporary public spaces, providing the perfect backdrop for your creative vision.

Emirates Glass utilizes state-of-the-art digital printing technology, enabling the direct transfer of high-resolution photos, images, and designs onto glass. Our advanced printing capabilities offer limitless possibilities, allowing for the integration of any color, effect, or pattern into your architectural and design projects. Be it intricate artwork, vibrant photography, or bespoke designs, our glass printing solutions provide breathtaking, lifelike visuals that transform spaces with creativity and precision.

OUR PRODUCT LINES

Emirates Glass presents an unparalleled selection of digitally printed wood designs on glass, ideal for infusing a touch of natural sophistication into your architectural and design endeavors. Our Wood Effect product line seamlessly merges the allure of authentic wood textures with the resilience and adaptability of glass, ensuring a contemporary yet enduring aesthetic for your interiors. Utilizing high-resolution digital printing, we produce striking, lifelike wood patterns that enhance any space with elegance and warmth.

STONES

Emirates Glass offers a stunning selection of Onyx stone products to elevate your architectural and design projects. Our Mineral product line exudes timeless elegance, providing natural beauty and durability for your spaces. Our Marble product line combines the timeless beauty of marble with the versatility of glass, perfect for adding sophistication to your architectural and interior design projects.
